

AutoScheduler Is Your WMS Accelerator

Intelligent Warehouse Orchestration

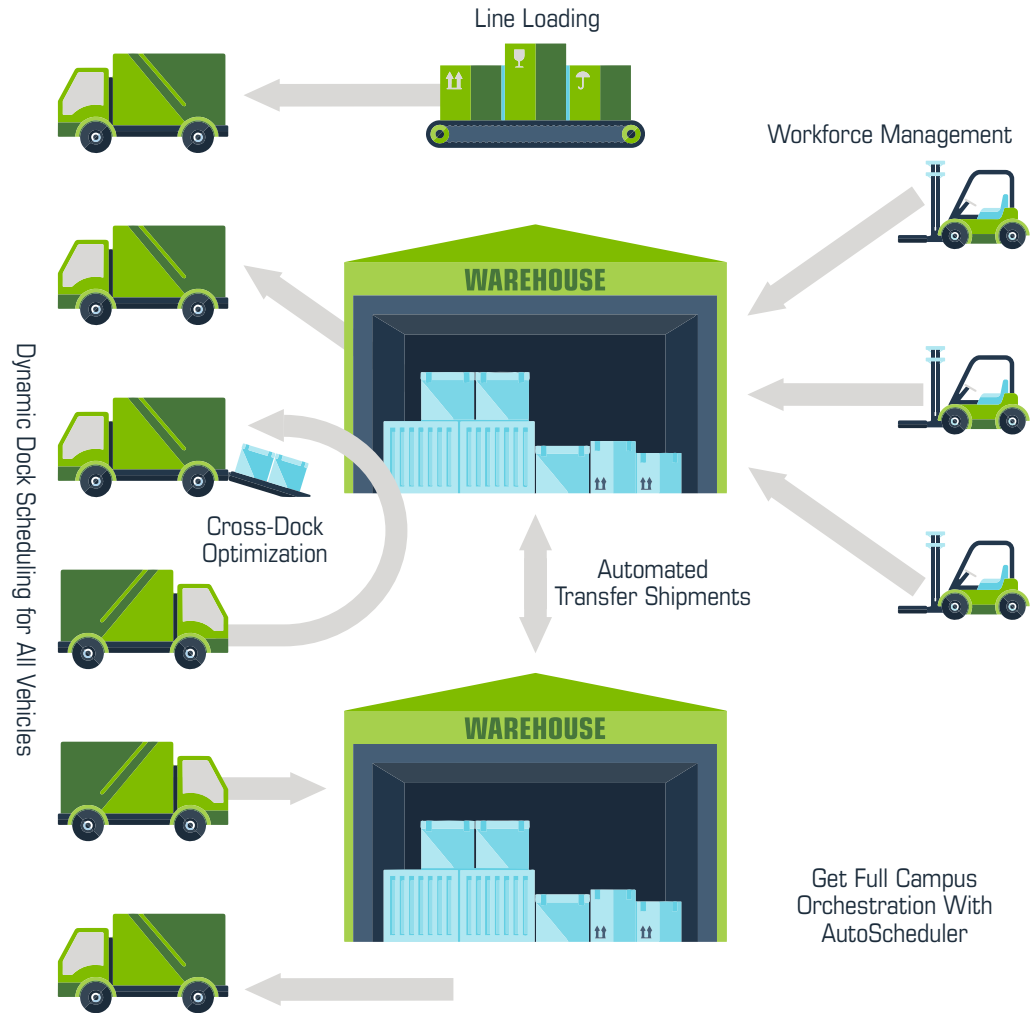

AutoScheduler is a WMS accelerator that sits on top of WMS and ERP systems to build inventory and capacity-constrained schedules that help solve problems like:

- Poor OTIF
- Dock schedule conflicts
- Inventory shortages
- Inefficient workforce allocation
- Struggling to meet carrier appointment times

“Although the WMS market is mature, we foresee the need for continued innovation in areas such as user experience, adaptability, decision support, materials handling automation integration, and work planning and optimization.”

– Gartner *Magic Quadrant for Warehouse Management Systems* Simon Tunstall, Dwight Klappich, 6 May 2020

Proven Cost Savings

- Went from 40% to 80% of shipments coming directly from the plant
- Cross-dock turns improved from <2% to 5%
- Reduced all warehouse transactions by 33%
- Improved OTIF by 2+% in all deployments

“AutoScheduler is saving Lima Plant more than \$4 million per year.”

– Procter & Gamble
